Young Professionals Network

HELLO!

I LIVE, WORK, OR HAVE AN INTEREST IN MINOT AND AM BETWEEN THE AGES OF 21 TO 39. I'M LOOKING TO NETWORK WITH MY PEERS THROUGH PROFESSIONAL DEVELOPMENT, SERVICE, SOCIAL, AND ENTREPRENEURIAL EVENTS.

Sound Like You or Your Employee?

Then the Minot Young Professionals Network is for you! The mission of YP Minot is to enhance the culture for young professionals in the Minot community through professional development, community service, and social networking; to create new opportunities for YP members; and to connect YP members to organizations in the Minot community.

The YP consists of four planning teams. You may join any number of teams — your involvement is up to you.

The entire YP Network holds quarterly formal meetings. In between those meetings, monthly networking opportunities will be coordinated by the individual teams. Events will include Power Hour lunches, social events, service projects, community projects, and Business After Hours. You can be involved in the planning of these events by joining one or more of the teams.

Which Planning Teams Can I Join?

Community Links Team

Community Links provides opportunities to build ties between the business community and other entities that have a stake in the business community. Specifically, this team focuses on how YP can help enhance Minot State University's Vision 2013 by creating relationships and awareness through proposed activities jointly with key members of the University administration and marketing departments. The Community Links Team also works to include Minot State University's young professionals in Minot YP events and projects.

Outreach Team

The Outreach Team creates YP awareness for potential new members, Minot businesses, and community organizations; welcomes new and current members to YP functions; gives back to our community through service projects; and keeps members and non-members informed of YP activities. Being part of the Outreach Team allows team members to focus on a wide range of activities including new membership, promotion of YP activities, serving our community and its organizations, family-focused events, and much more! One great aspect of this team is that members will have the opportunity to be involved in many different types of activities or just one that interests them.

Professional Development Team

The Professional Development Team is here to "Promote your Professional Success." The team seeks to connect Young Professionals with opportunities to further enhance their learning, leadership skills, career development, and personal growth. As Young Professionals we are energized by the fact that YPs have not yet become complacent and are continually striving to seek new knowledge, new challenges, and new opportunities. Whether it is a seminar on how to invest for your future, a panel of experts debating a community issue, or how to start a business, the PD Team is here to connect you to the opportunities that matter most!

Social Team

The Social Team creates environments in which YPN members can socialize while expanding and diversifying their networks. The Social Team continually strives to instill energy, fun, and enthusiasm into the YPN. The Social Team welcomes individuals new to the Minot community by providing them the opportunity to "get plugged in" to the community.
